

ReStore Merchandise Volunteer

Volunteer Service Description:

Twin Cities Habitat for Humanity ReStore is a home improvement outlet that provides new and used building materials at a discounted price. Twin Cities Habitat for Humanity accepts donations at our ReStore to help us raise money to build homes with low-income families. The ReStore relies heavily on volunteer labor to help us in these efforts.

Responsibilities:

Assist the ReStore Manager and Associates in various aspects of store operation. Possible tasks may include:

- Assisting ReStore employees in maintaining a clean and attractive store
- Printing price tags and putting inventory on the shelves

Volunteer Impact:

Volunteer will play a direct role in creating a clean and organized atmosphere for customers and a friendly & efficient donation drop off experience for donors. The profits from the sale of items at the ReStore will go directly back into the community by enabling TCHFH to build more homes and serve more families.

Skill Qualifications:

Volunteers must be flexible and task-oriented. No experience is required, however, volunteers who have skills or interest in interior design, home decorating or DIY projects are especially valuable. Volunteers will work with the ReStore manager to prioritize tasks and choose assignments that best match the volunteer's skills and abilities.

Shifts available:

Tuesday-Friday: 10am-2pm, 12pm-4pm or 2pm-6pm

Saturday: 10am-2pm or 12pm-4pm

There is limited flexibility available for these times.

Training & Supervision:

Will be provided by ReStore Manager and Associates.
